

Friday's Night

On a Friday's Night
Our story began with a smile

We danced all night long
And I felt my heart beating so strong

It seemed like a dream
When dark clouds let appear a
moonbeam

Ooh..

It was magical
Just you and I
On this Friday Night

**You're in my mind
All of the time**

**Just you and I
On this Friday Night**

On a Friday's Night
You asked me "Would you like to be
mine?"

Then you embraced me
And I whispered to you my answer

Ooh..

You know my darling

That I'll never forget this evening

Ooh..

It was magical
Just you and I
On this Friday Night

**You're in my mind
All of the time**

**Just you and I
On this Friday Night**

.. a Friday's Night.. Oh Oh Oh Oh..

Oh! I can't stay without you
And I want you to know how I feel
about you

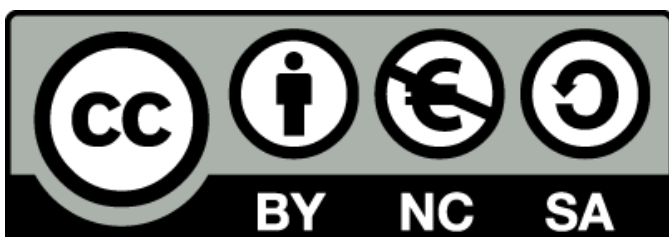

On this Friday Night
I say "yes" under a twilight sky

It's a special day
Because now we are both on life's way

Eh.. Eh.. Eh.. Eh..

'Love you forever
I feel complete when we're together

I love you so
